

EMS Week May 17th-23rd, 2009

A Proud Partner in Your Community

This year's theme emphasizes the motivation behind the dedicated service being provided to patient's everyday, often under incredibly challenging circumstances. EMS is more than out-of-hospital patient care, and ambulance transport. It is an extension of emergency medicine, an arm of public health, a safety net, prevention, first response, and public safety. EMS is Saskatchewan's front line of health care

Activities will be planned around this year's theme, which underscores the commitment, dedication and the commitment of the EMS providers who serve their communities. Events will include activities to raise public awareness about health and safety issues, injury prevention, and what to do in a medical emergency.

Watch the newspaper, call or visit our website to learn more about EMS week in your community!
