2007 Econoline Diesel Announcement

Due to a supplier issue we are taking the following actions for all 2007 Model Year Econoline Diesels.

- All unscheduled orders will be placed on "Material Hold" effective sometime on Wednesday, 2/7/07.
- Once the orders are placed on "Material Hold" you will see the following message:

This notice is to inform you of a diesel engine supply issue which affects the 6.0L diesel engine that is currently offered in the E-Series vans, wagons and cutaways. We can no longer accept orders which include this engine. We apologize for any inconvenience this may cause our dealers, customers, and pool accounts

- All scheduling of Econoline Diesels will be suspended until March Scheduling which will start on February 15, 2007.
- Depending upon diesel engine availability, we will try to honor as much of your E-Series diesel commitment as possible beginning with March Scheduling.
